A Special 20 Percent Discount

If You Act Promptly

FRANKLY, there's a wee string tied to this liberal 20% discount. A string that you will at once see the fairness of, and be glad to take advantage of the money you can so easily save by using it.

In order to get a price from the sole growers of the new Ideal Darwins in Holland, so that we could give you this 20% discount on the six varieties listed here, they made it a condition that we also buy a certain number of other bulbs, which you'll agree was only fair enough.

So in order to get this 20% discount on these 6 Ideal Darwins, we are also asking you to include with your order

for these Darwins, some other bulbs from our catalog.

Sorry, but with this liberal discount, it is impossible to take orders for less than \$6. Be assured, however, if you have ordered, previous to this announcement, any of these six varieties named below, in combination with other bulbs, you will get the 20% discount just the same, without any request on your part.

If you have mislaid the Bulb Catalog we sent you in May, write at once for another. Now is bulb ordering time. Send your order at once while stocks are complete.
